Collecting

Herman Gysel has collected since he was a child. What started with an Allis-Chalmers Motor scraper made by Matchbox has become a collection which has taken over much of his house.

The Komatsu PC8000 was a hefty new item at the Bauma that just ended in Munich. We are introducing all the new models in this report.

Models

NZG has had the great fortune to launch the new Liebherr R944C Tunnel. This excavator with its specialized attachment shines with its high level of detailing

The firm of Ladegueter Bauer built a show stopper of a diorama for the Nuremberg Toy Fair. The de-construction of a factory complex was excellently executed with a love of detail after many hours of observation of the real thing.

News

We are introducing the new tunnel excavator models from NZG and Caterpillar and are also looking at the attachment and how they look when operating.

Dragline excavators are no longer a daily occurrence. We take a close up look at the historical Northwest 25-D and put the new Spec-Cast models in 1: 50 scale under the magnifying glass to see what we can find out about them.
